Icon and text actions

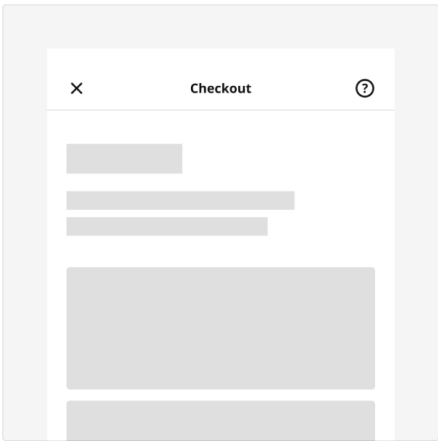

App Bar with a text action accompanied by an Icon. Usually a close or back Icon.

Behaviours

Fixed position

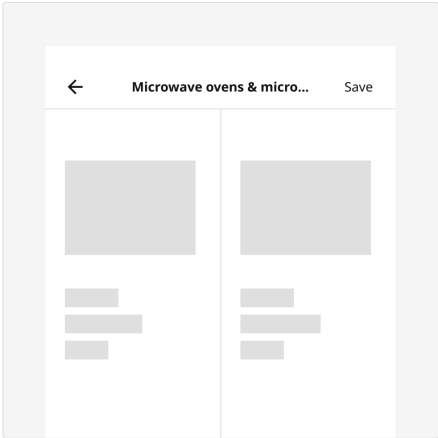

The App Bar is fixed at the top of the page.

Bar visibility on scroll

App Bar has the option to enable itself to hide and show depending on the scroll direction.

Downwards scrolling will hide the App Bar, while upwards scrolling (reverse) will return the App Bar into view.

Title truncation

Long page title truncate with ellipses '...'

Usage

Use left position for navigation only

The icons on the left side of the App Bar are reserved for actions that dismiss or navigate away from a page like a back or close button.

Billing address

☐ Same as delivery address

☒ This is a business address

First name
Mohan

Last name
Ramaswamy

Gift Card

Back ?

Gift card number

Pincode

✔
Left arrow icon action for user to return to previous page.

⚠
While correct in some instances, consider keeping back navigation styling and titling consistent with the rest of the app.

Remain persistent and consistent

The App Bar is typically present on all pages unless replaced with a custom page header.

Gift card number

Pincode

✔
Option to dismiss or to be directed to more information.

❗
Page lacks navigation and context without App Bar.

Motion

Hiding and revealing

Scrolling upwards hides the App Bar and scrolling down reveals it.

- Enters using [Enter Ease](#)
- Exits using [Exit Ease](#)
- Exits using [Quick Duration](#)

Internationalisation

RTL languages

For right-to-left languages, placement positions should be flipped.
